

# Hospital Improvement Innovation Network Partnering with IHA and HRET

Nov. 1, 2016

# Understanding HIIN

## A Flowchart

# Quick Reference Comparison

	<b>Original HEN</b>	<b>HEN 2.0</b>	<b>HIIN</b>
<b>Funding Source</b>	Affordable Care Act	Affordable Care Act	Medicare Trust Fund
<b>Project Timeline</b>	2 base years; 1 optional year	1 base year; no optional year	2 base years; 1 optional year
<b>Project Aim</b>	40% reduction in preventable harm; 20% reduction in readmissions	40% reduction in preventable harm; 20% reduction in readmissions	20% reduction in all cause harm; 12% reduction in readmissions
<b>Number of hospitals</b>	1,378	1,497	~1710
<b>Number/Types of Topics</b>	10 core harm topics plus readmissions ADE, CAUTI, CLABSI, EED, Falls, OB Harm, Pressure Ulcers, SSI, VAP/VAE, VTE	10 core harm topics plus readmissions ADE, CAUTI, CLABSI, EED, Falls, OB Harm, Pressure Ulcers, SSI, VAE, VTE	10 core harm topics plus readmissions ADE, CAUTI, CLABSI, C-diff, Falls, Pressure Ulcers, Sepsis, SSI, VAE, VTE
<b>Number of Primes</b>	<b>26</b>	<b>17</b>	<b>16</b>
<b>Data Submission Baseline</b>	2010	2010	2014
<b>Data Measures</b>	Mix of national, state, and organizationally defined measures	Nationally defined (standardized) outcome measures	Nationally defined (standardized) outcome measures

## **Keep patients from getting injured or sicker**

- Reduce preventable hospital-acquired conditions by 40%.
- 1.8 million fewer injuries to patients, with more than 60,000 lives saved over the next three years
- Help patients heal without complication

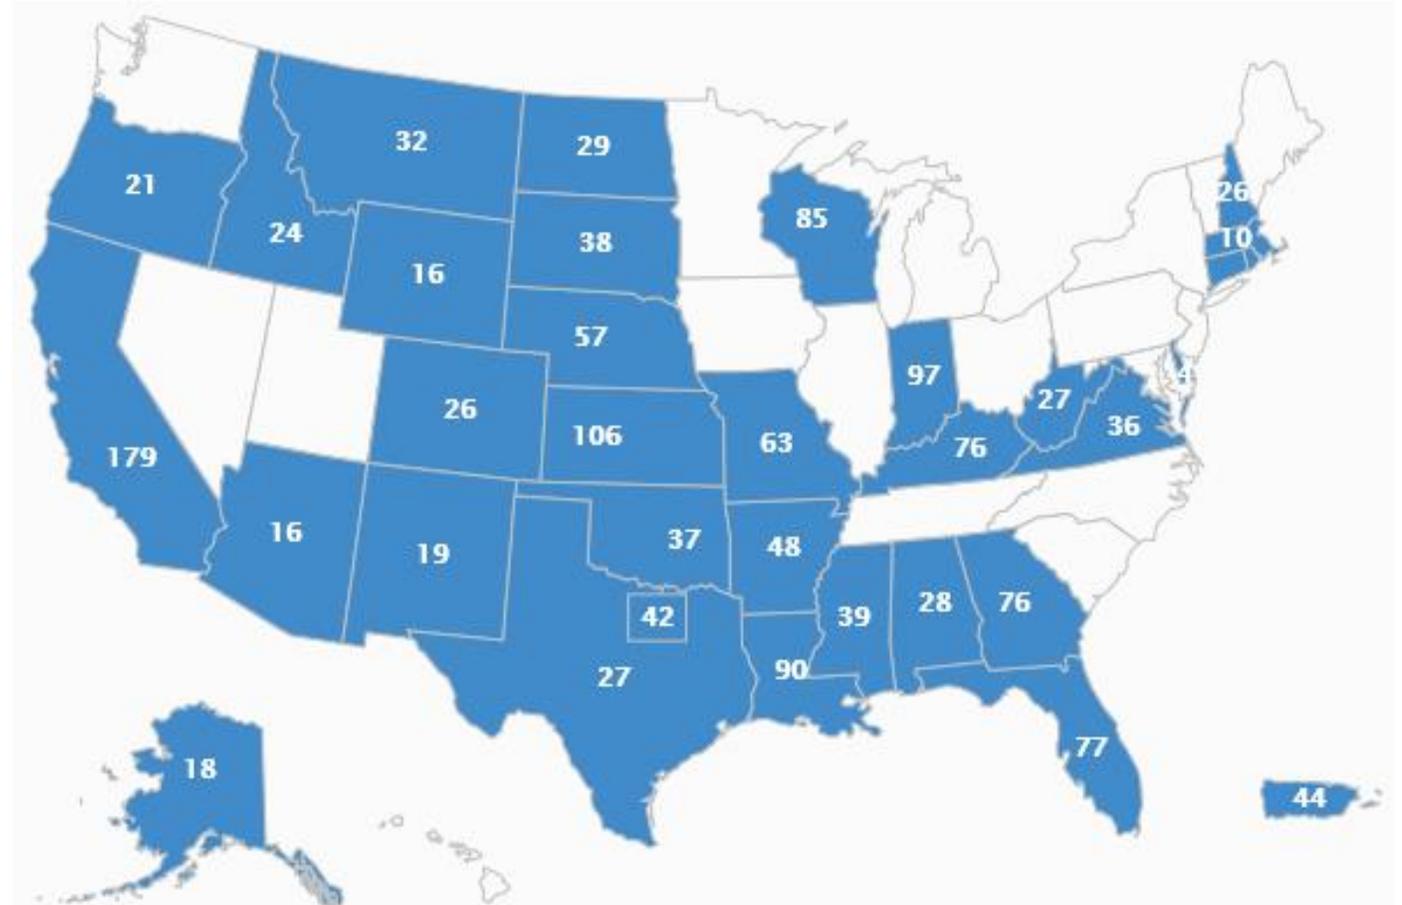

## **Reduce all hospital readmissions by 20%**

- 1.6 million patients will recover from illness without suffering a preventable complication requiring re-hospitalization within 30 days of discharge

# HRET HEN 2.0

2015-2016

- 34 states and over 1500 hospitals in the AHA/HRET HEN 2.0 project
- Working in conjunction with 16 other HENs for a total of 3200 hospitals!

# HRET HEN 2.0 Accomplishments

TABLE 1: FINAL AHA/HRET HEN 2.0 ESTIMATED TOTAL HARMS PREVENTED AND COST SAVINGS

TOPIC	HARMS PREVENTED	COST/HARM	COST SAVINGS
ADE <sup>1</sup>	15,611	\$5,000 <sup>1</sup>	\$78,054,063
CAUTI	505	\$1,000	\$505,078
CLABSI	439	\$17,000	\$7,469,333
EED	1,151	\$9,732	\$11,240,529
Falls	1,409	\$12,965	\$18,265,363
OB Harm <sup>2</sup>	4,336	\$114 (with instrument) \$197 (without instrument)	\$753,627
Pressure Ulcers	1,122	\$17,000	\$19,077,915
Readmissions	8,040	\$15,477	\$124,440,097
SSI <sup>3</sup>	792	\$21,000	\$16,630,883
VAE	278	\$21,000	\$5,832,649
VTE	738	\$8,000	\$5,901,515
<b>TOTAL</b>	<b>34,422</b>	<b>---</b>	<b>\$288,171,052</b>

\* Totals may not match sum of individual topics due to rounding.

1. Represents total harms and cost savings for all events reported (hypoglycemia, anticoagulation, and opioid adverse drug events)
2. Represents total harms and cost savings for obstetrical trauma for vaginal deliveries with instrument, and obstetrical trauma for vaginal deliveries without instrument

3. Represents total harms and cost savings for all procedures reported (colon surgeries, abdominal hysterectomies, total hip replacement, and total knee replacement)

Data Source: Data submitted as of 09/01/2016, for October 2015 through May 2016. Costs per harm were provided by the HEN 2.0 Evaluation Contractor, July 20 2016, "PFPPEC\_Cost Savings\_ROI\_Summary\_PDF"

# Indiana HEN 2.0 Accomplishments

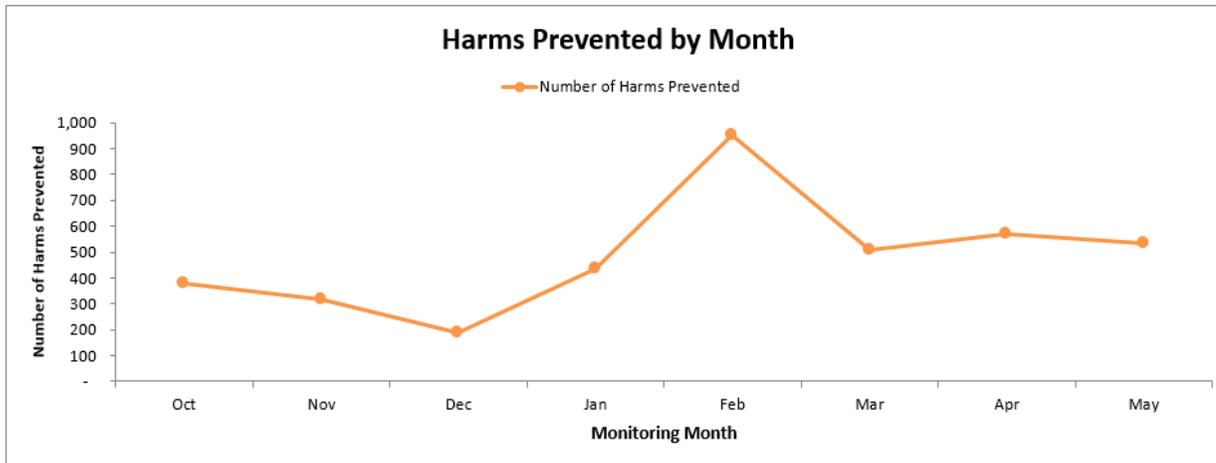

## Indiana Hospital Association

AHA/HRET HEN 2.0 Final Project Report, 2015-2016

Aiming High: Collective Impact for Results

### STATE AGGREGATE TOPIC-LEVEL ACHIEVEMENT

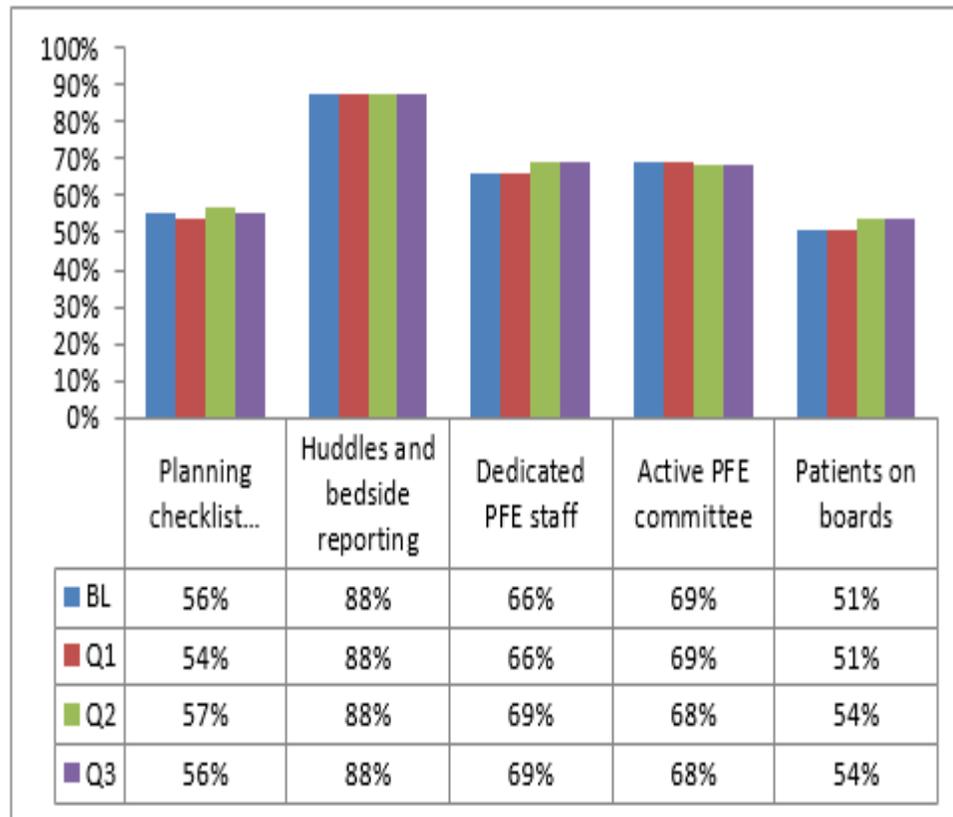

Using data submitted to CDS as of 09/01/2016	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	YTD (1)
Number of Harms Prevented	379	316	188	433	950	506	571	533	3751
Cost Savings	\$4,382,595	\$2,910,726	\$1,093,002	\$3,352,761	\$8,896,475	\$4,267,402	\$5,155,222	\$4,574,632	\$32,937,437

The YTD value reflects the net harms prevented for all hospitals in the state for the entire monitoring period, and may not equal the sum of individual monthly harms prevented.

	Baseline Rate	Most Current Q Rate (Mar - May 2016)	Relative reduction	Baseline Data Submission	May Data Submission
ADE	1.18	0.85	-28.4%	90%	82%
CAUTI	1.01	0.94	-7.3%	100%	96%
CLABSI	1.06	1.09	3.2%	100%	96%
EED	2.95	0.52	-82.2%	100%	85%
Falls	0.57	0.53	-6.6%	97%	82%
OB Harm	20.17	11.78	-41.6%	100%	88%
PrU (1)	1.03	0.19	-81.4%	126%	104%
Read	9.92	9.45	-4.8%	95%	78%
SSI	2.44	2.07	-15.0%	95%	80%
VAE	3.41	5.44	59.7%	99%	92%
VTE	3.76	3.09	-17.8%	98%	85%

# PFE & Health Disparities

Patient & Family Engagement Metrics

Disparities Metrics

# Person and Family Engagement

- Implementation of planning checklist
- Conducting shift change huddles and bedside reporting
- Accountable leader who is responsible for PFE
- Hospitals having an active Person and Family Engagement Committee
- One or more patient representatives serving on hospital Board of Directors

# Health Care Disparities

- Review and address gaps in the collection of Race, Ethnicity, Age and Language data
- Measure disparities related to readmission as a top priority
- Questions related to PFE and disparities will be asked in the initial needs assessment and then updated once a quarter to track progress

# Where We are Going

## GOALS:

20%

Overall Reduction in Hospital Acquired Conditions  
(baseline 2014)

12%

Reduction in 30-Day Readmissions  
(baseline 2014)

“America’s hospitals embrace the ambitious new goals CMS has proposed,” said Rick Pollack, president and CEO of the American Hospital Association (AHA). “The vast majority of the nation’s 5,000 hospitals were involved in the successful pursuit of the initial Partnership for Patients aims. **Our goal is to get to zero incidents.** AHA and our members intend to keep an unrelenting focus on providing better, safer care to our patients -- working in close partnership with the federal government and with each other.”

<b>2010</b>	145 Harms/1,000 Discharges
<b>2011</b>	142 Harms/1,000 Discharges
<b>2012</b>	132 Harms/1,000 Discharges
<b>2013</b>	121 Harms/1,000 Discharges
<b>2014</b>	121 Harms/1,000 Discharges

### New Goal

**2019** 97 Harms/1,000 Discharges

[partnershipforpatients.cms.gov](http://partnershipforpatients.cms.gov)

# HIIN Is Different

- Focus on individualized approaches & technical assistance
- Emphasis on doing, not planning
- Identifying and spreading adaptive solutions
- Leverage stories and public narrative for change

# Benefits of HIN Participation

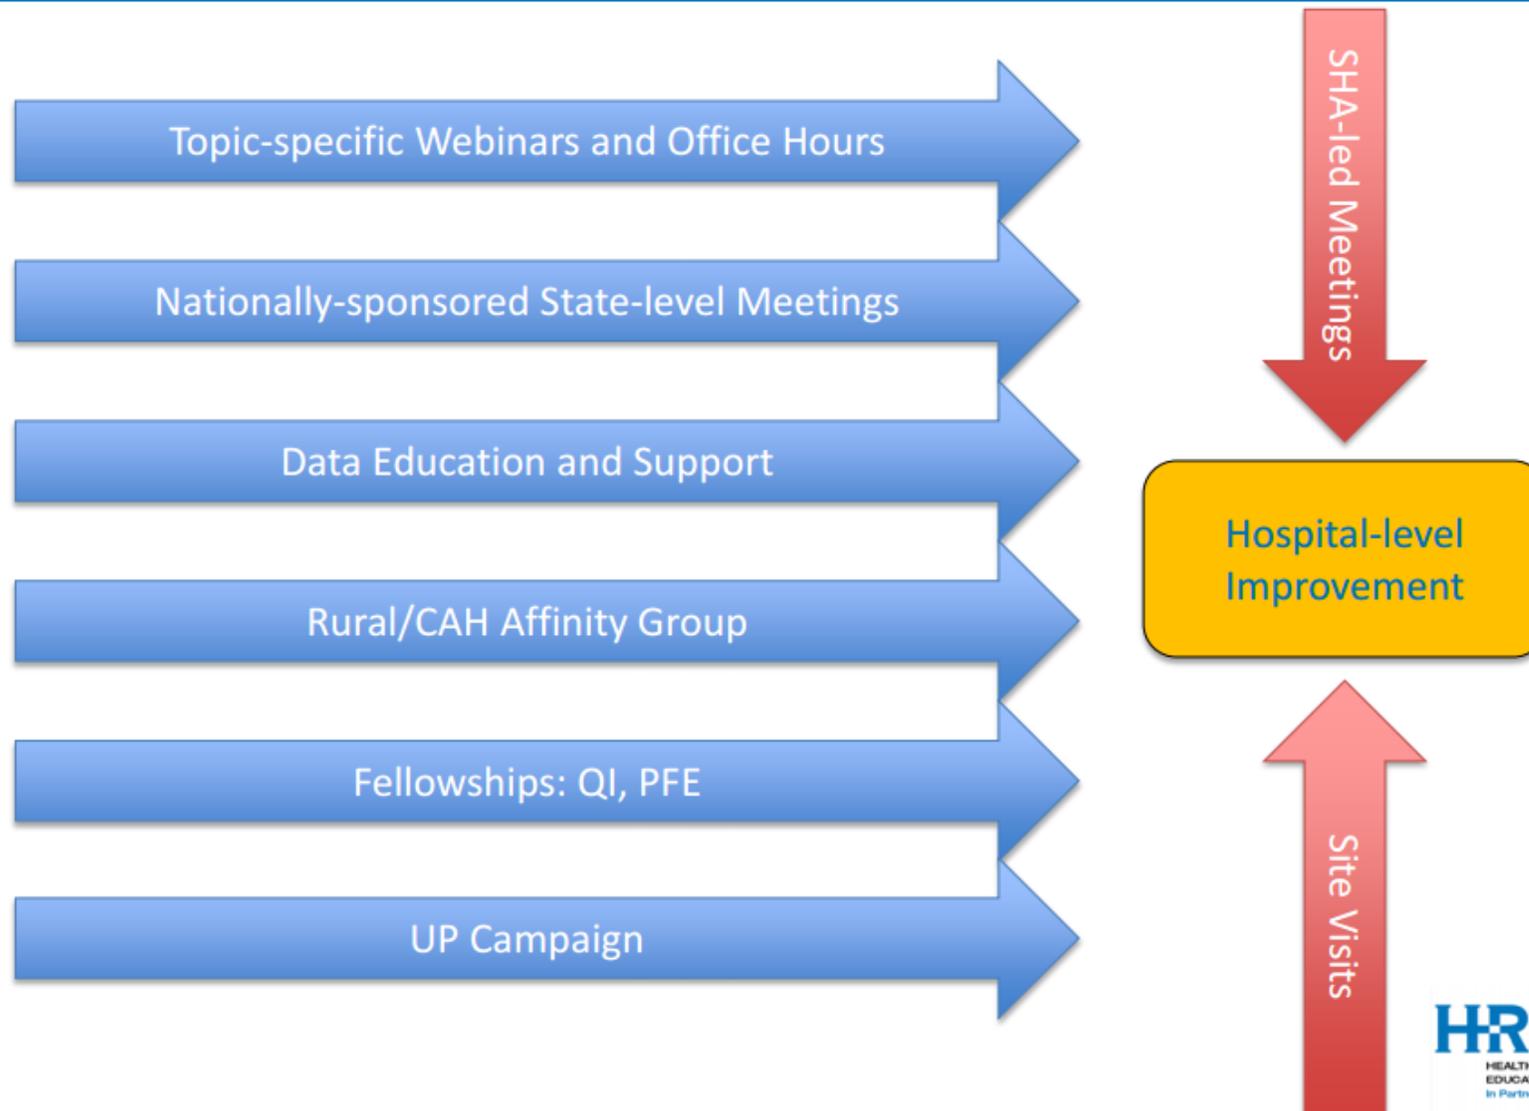

- Reduces harm to patients
- Improves quality of care
- Access to programming
- Pay for Performance <https://www.qualitynet.org/>
- PSO <https://pso.ahrq.gov/>
- MACRA <https://qpp.cms.gov>

CMS-5517-FC

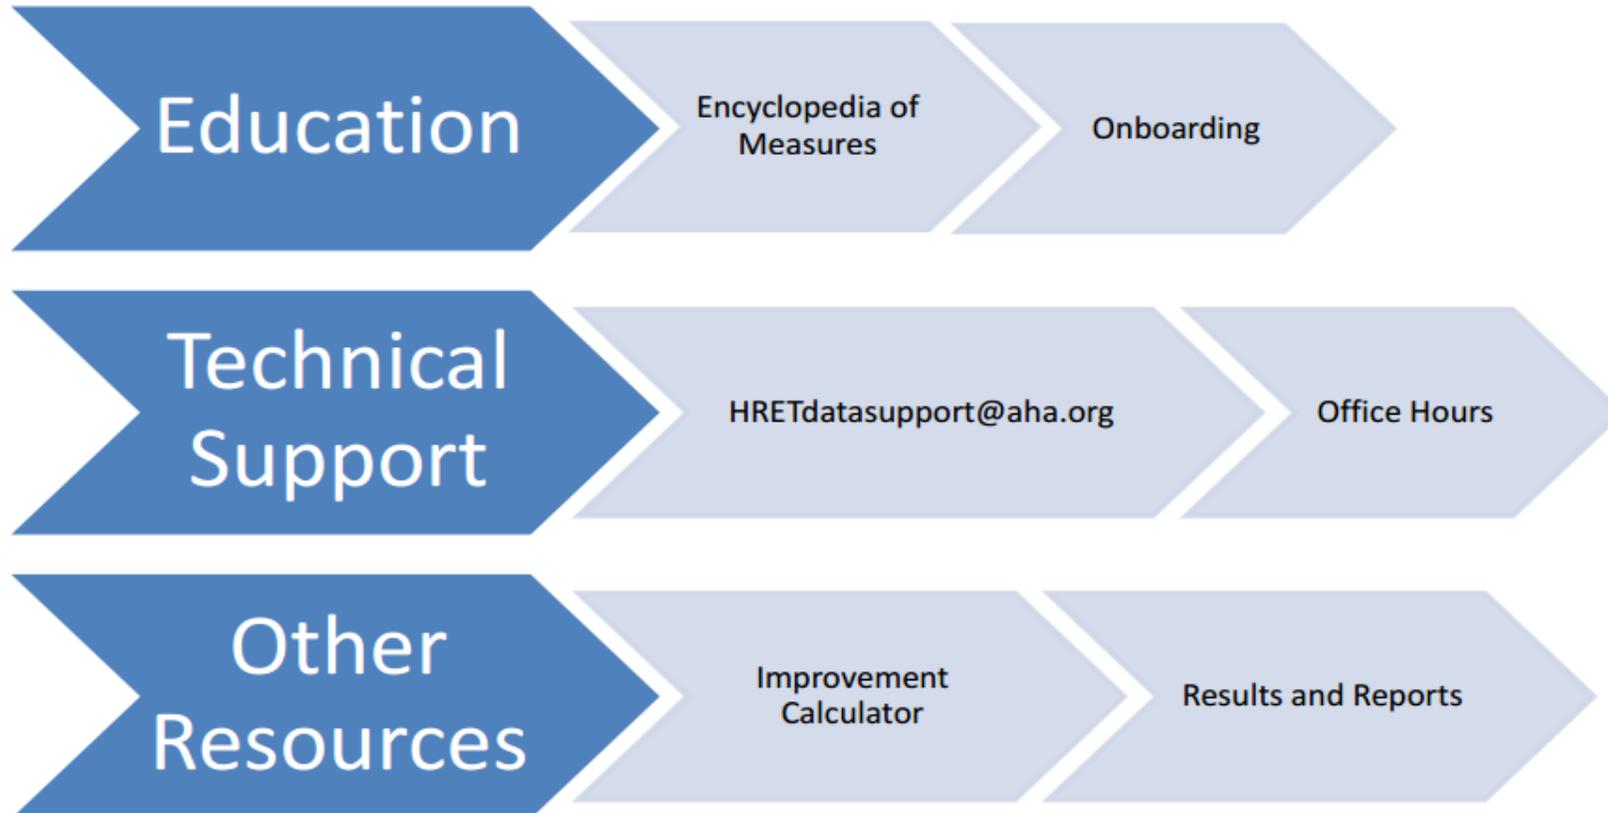

2163

Subcategory	Activity	Weighting	Eligible for Advancing Care Information Bonus (Designated with asterisk * if eligible)
	Network-Quality Improvement Organization after technical assistance has been provided related to improving care coordination.		
Care Coordination	Participation in the CMS Transforming Clinical Practice Initiative.	High	
Care Coordination	Membership and participation in a CMS Partnership for Patients Hospital Engagement Network.	Medium	
Care Coordination	Participation in a Qualified Clinical Data Registry, demonstrating performance of activities that promote use of standard practices, tools and processes for quality improvement (e.g., documented preventative screening and vaccinations that can be shared across MIPS eligible clinician or groups).	Medium	
Care Coordination	Implementation of regular care coordination training.	Medium	
Care Coordination	Implementation of practices/processes that document care coordination activities (e.g., a documented care coordination encounter that tracks all clinical staff involved and communications from date patient is scheduled for outpatient procedure through day of procedure).	Medium	*
Care Coordination	Implementation of practices/processes to develop regularly updated individual care plans for at-risk patients that are shared with the beneficiary or caregiver(s).	Medium	*
Care Coordination	Implementation of practices/processes for care transition that include documentation of how a MIPS eligible clinician or group carried out a patient-centered action plan for first 30 days following a discharge (e.g., staff involved, phone calls conducted in support of transition, accompaniments, navigation	Medium	

# Overview of Our HIIN Plan

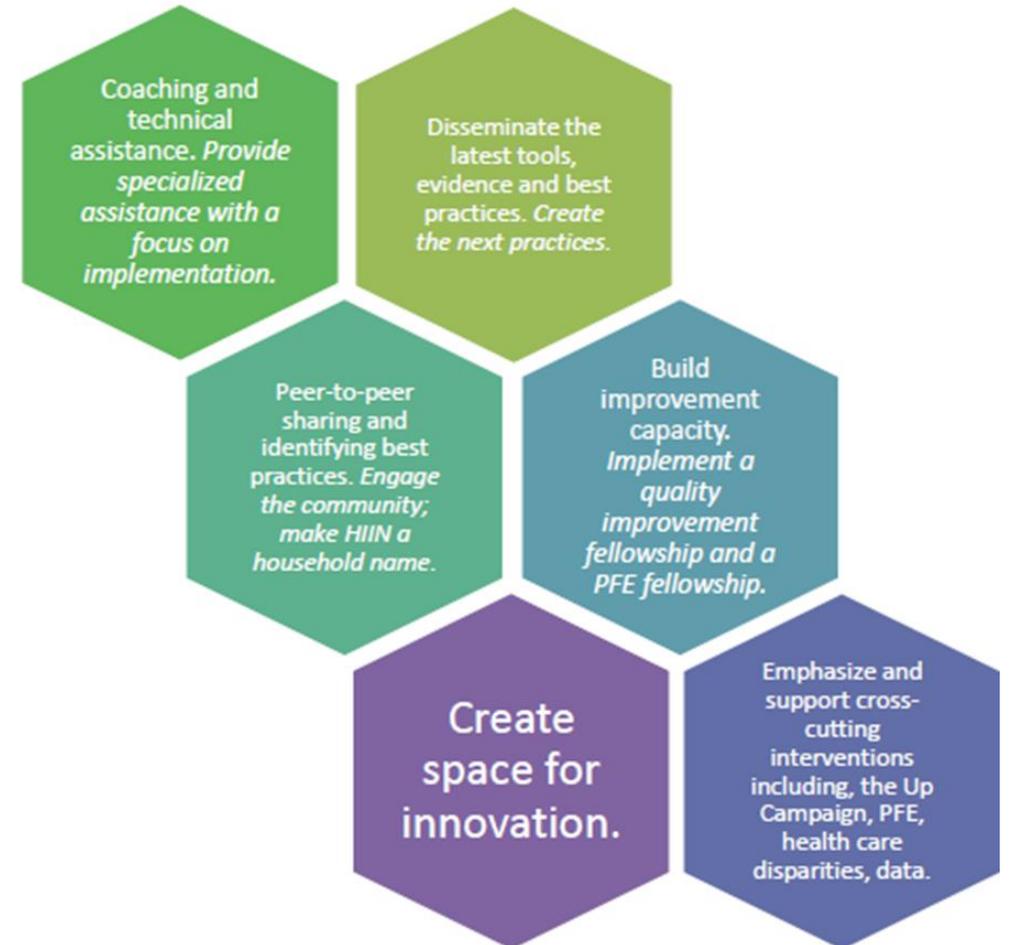

# Setting Up for Success... HRET will provide

# Align – Accelerate - Amplify

## HRET'S APPROACH

- Framing all HIIN work as a single, cross-cutting improvement initiative rather than series of discrete efforts
  - Group a few interventions together (leadership, current/accurate data, physician engagement, culture of safety, PFE)
- Emphasize “doing” within the hospital rather than “attending” as the route to substantive progress
  - Look at the improvement occurring within the organization
- Stressing rapid progress vs chance
  - Focus on rapid change linked to process improvement

# HRET Areas of Emphasis

- **Organizational Engagement**
  - **Leadership engagement**
    - Leverage HIT resources to promote improvement
    - Making the financial case
    - Monitoring and promoting improvement
  - **Physician Engagement**
    - Training and coaching to project leaders regarding how to effectively engage physicians
    - Training and coaching for physicians on how they can champion improvement efforts
  - **Patient / Family Insights**
    - Provide guidance and coaching on how to leverage PFE insights to reduce harm
    - Focused guidance on how PFE can directly contribute to avoid infections, prevent falls

# HRET Support

- Hands on Improvement Support
  - Site Visits
    - Well-planned and executed site visits
    - Foster leadership support
    - Facilitate physician engagement
    - Provide a forum to receive practical advice on topics
  - Coaching calls
    - Focus on implementation challenges
    - Allow hospitals to ask questions, get advice and encouragement
    - Obtain improvement insights
  - Panels
    - Clinical and implementation experts
    - Hospital staff
    - Peer level sharing

# HRET Tactics

- Data System
  - Simple, straight forward, user-friendly, non-duplicative
- Education and resources development
  - Best practice dissemination
  - Active engagement by participants
  - Implementation challenges addressed
- Virtual support, tools and resources
  - Easily accessible, relevant
  - Website and LISTSERV®
- SMEs, IAs, Physician Advisors
- Guidance from a national patient advisory council
- Focused virtual events (e.g., webinars, conference calls)
- Extensive online support
- In-person meetings: national and state-sponsored
- Fellowships
- Leveraging data
- Site visits
- Coaching and accountability

# IHA State Implementation

- Site visits
- Coaching calls
- In-person statewide meeting
- Regional patient safety coalitions
- Patient safety summit
- Improvement cohorts
- Affinity Groups
- Science of Improvement Programs, e.g., LEAN / Team STEPPS / High Reliability
- Topic specific campaigns
- Data support, e.g., reports, help desk
- On-going communication

# HRET-HIIN Website

## Hospital Improvement Innovation Network

- Audience
- Patients & Families
- Senior Leadership & Governance
- Physician Leadership
- Unit-Based Improvement Teams
- Data & Informatics Teams

Join Us About ▾ Data Upcoming Events

Welcome to the HRET Hospital Improvement Innovation Network!

The Centers for Medicare & Medicaid Services recently awarded the Health Research & Educational Trust (HRET) a two-year Hospital Improvement Innovation

Our Partner

## Data & Quality Improvement

The HRET HIIN project aims to reducing all-cause inpatient harm by 20 per participating hospitals. A key component to making patient care safer in you towards improvement using clinical data.

**Data Tools.** The HRET HIIN project provides a number of tools to support the [Encyclopedia of Measures \(EOM\)](#) which serves as the measure reference required topic measures. Tracking your data in this manner will provide you to study your data across time using run charts, and determine the effect y in your hospital at reducing patient harm.

**Submitting Data.** If your hospital will be joining the HRET HIIN NHSN gro NHSN, the [NHSN Group Instructions](#) will guide you through this process.

Download the EOM

NHSN Group Instructions

EOM available at  
[www.hret-hiin.org](http://www.hret-hiin.org)

### ENCYCLOPEDIA(S) OF MEASURES

- Topic
- Measure applicability
- Numerator & denominator statement
- Rate calculation formula
- Hyperlinked publicly available specifications
- NHSN availability
- Baseline timeframes
- Measure identifiers
- Additional resources

Update was released on 10/31/2016

[IHAconnect.org/Quality-Patient-Safety](http://IHAconnect.org/Quality-Patient-Safety)

# Reporting Measures

## MEASURES FOR ALL HOSPITALS

Topic – Measure	Baseline	Y1 Goal	Y2 Goal
ADE – individual measures, composite	2014	7%	20%
CAUTI – overall rate	2015	10%	20%
<i>c. Difficile</i> – rate	2014	7%	20%
Falls	2014	7%	20%
Pressure Ulcers – rate <sup>1</sup> , prevalence	2014	10%	20%
Readmissions	2014	4%	12%
Sepsis – mortality	2014	7%	20%
<i>MRSA</i> – rate	2014	5%	10%
<i>Culture of Safety</i> – worker harm events	2014	5%	10%

<sup>1</sup> The AHRQ PSI measure specifications exclude stays less than 5 days. While CAHs are required to maintain an annual average length of stay of 96 hours or less, CAHs are encouraged to follow the specifications to track pressure ulcers for appropriate inpatient stays in their facilities, even if the inpatient stay is less than 5 days.

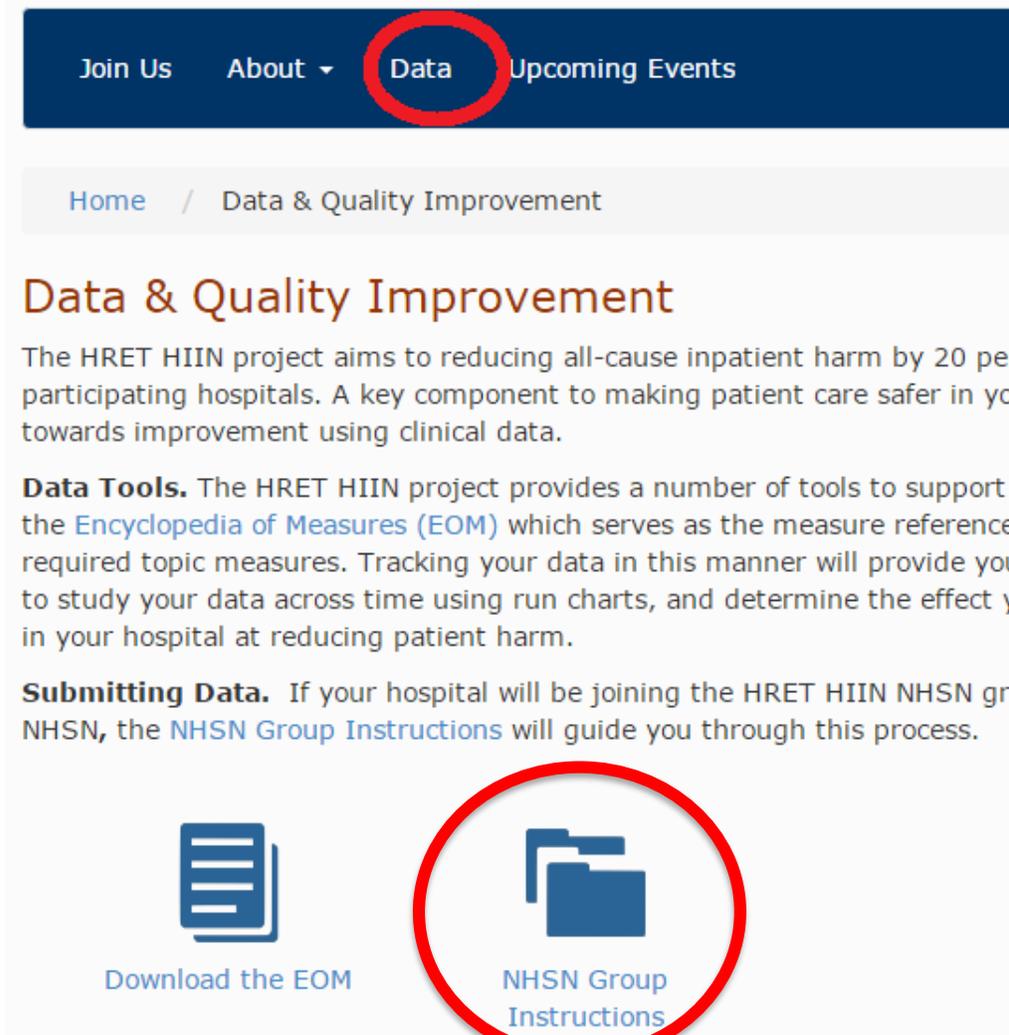

# Reporting Measures

## MEASURES FOR SPECIFIC HOSPITALS

Topic - Measure	Applicability	Baseline	Y1 Goal	Y2 Goal
CAUTI – ICU rate	Hospitals w/ICUs	2015	10%	20%
CAUTI – SIRs	Hospitals reporting to NHSN	2015	10%	20%
<i>c. Difficile</i> – SIR	Hospitals reporting to NHSN	2015	7%	20%
CLABSI – ICU rate	Hospitals w/ICUs	2015	10%	20%
CLABSI – SIRs	Hospitals reporting to NHSN	2015	10%	20%
MRSA – SIR	Hospitals reporting to NHSN	2015	7%	20%
VTE – post operative	Hospitals that perform inpatient surgeries	2014	7%	20%
VAE – VAC and IVAC	Hospitals that use ventilators	2014	7%	20%
SSI – rates	Hospitals that perform each of the four surgeries listed	2014	10%	20%
SSI - SIR	Hospitals reporting to NHSN	2015	10%	20%

# NHSN Reporting Groups

- Facilities have the option to join and confer rights to an NHSN group (HRET and IHA)
- If you join an NHSN group, baseline and monitoring data will be extracted for you by the group
- Instructions on how to join and confer rights to the HRET group are available on the HEN website: [http://www.hret-hiin.org/data/hiin\\_nhsnconferrightsinstructions\\_pdf.pdf](http://www.hret-hiin.org/data/hiin_nhsnconferrightsinstructions_pdf.pdf)
- Instructions on how to join and confer rights to the IHA group are available:  
<https://ihaconnect.boxcn.net/shared/static/02f8529901dc6f674503.pdf>

The screenshot shows the website's navigation bar with 'Data' circled in red. Below it is a breadcrumb trail 'Home / Data & Quality Improvement'. The main heading is 'Data & Quality Improvement'. The text describes the project's goal to reduce inpatient harm by 20% and mentions 'Data Tools' and 'Submitting Data'. At the bottom, there are two icons: 'Download the EOM' and 'NHSN Group Instructions', with the latter circled in red.

# HIIN Data FAQ

**Q: When will CDS be available?**

A: Within the next two weeks, but no later than Nov. 11 2016.

**Q: How will hospitals get set up in CDS?**

A: All hospitals will be granted an “initial setup” login which will permit them to create specific user accounts.

- If you are a returning HEN 2.0 hospital, any users who logged into CDS within 90 days of the end of HEN 2.0 will be migrated.

- Stay tuned for the “Quick Start Guides”

# HIIN Data FAQ

**Q: How will CDS “look” for HIIN?**

A: CDS will display one baseline, with start and end dates to be selected by the hospital (refer to the EOM for the preferred baselines!)

A: CDS will display monthly data beginning with October 2016.

**Q: Will returning HEN 2.0 hospitals be able to see their HEN 2.0 data?**

A: Not as the HEN 2.0 project. If a returning hospital has data that meets the migration criteria, HRET will migrate that data.

# HIIN Data FAQs

**Q: Will data be migrated for returning HEN 2.0 hospitals, and when?**

**A:** Yes, as much as possible, for the HIIN baseline . HRET is working on the data migration plan and will provide details as soon they can.

## **HEN 2 DATA MIGRATION**

- Only available for HEN 2 hospitals committed to HIIN
- NHSN measures (facilities in HRET group) “new” baselines
  - SIRs: 2015 – **after** December 2016 update in NHSN
  - Rates: 2014 or 2015 (CLABSI, CAUTI)
- For other measures, assess baseline availability
  - If measure tracked before HEN 2, assess timeframes
  - If measure not tracked before HEN 2, use Oct – Dec ‘15
- *Will take time to complete*

# Upcoming AHA/HRET Webinars

- Nov. 8 from 12 – 1 p.m. ET  
*AHA HPOE Webinar Healthcare Reform and The Path to Equity*
- Nov. 8 from 12:00 – 12:50 p.m. ET  
*HRET HIIN | C. Difficile - Stubborn or Unreasonable?*
- Nov. 10 from 12 – 1 p.m. ET  
*HRET HIIN | Readmissions - Hospital Bright Spots*
- Nov. 15 from **TIME** ET  
*HRET HIIN | Data*
- Nov. 17 from **TIME** ET  
*HRET HIIN | ADE*
- Nov. 29 from **TIME** ET  
*HRET HIIN | Sepsis*

Webinar registrations can be located at <http://www.hret-hiin.org/events/events.shtml>

# Next Steps

1. Return Commitment Letter to IHA by **Nov. 18**
2. Confer Rights within NHSN to the HRET and IHA user groups
3. Review the Encyclopedia of Measures for data reporting details
4. Watch for announcements about CDS and needs assessments being available
5. Register for webinars
