- 5.0 continuing education hours
Click [here](#) for CE statements
- Handouts
- Certificate of completion

WHO SHOULD ATTEND: A clinician interested in wound care or work directly in wound care such as an LPN, RN, NP, PT, PTA, OT, OTA, Nurse Manager, Treatment Nurse, Wound Care Team, Clinic Director, MDS Coordinator, or Consultant.

5 HOUR FREE SEMINAR and a **lifetime of knowledge**

From the novice to the well-seasoned veteran, this session will provide a step-by-step approach for conducting the perfect wound assessment. This includes tissue types, wound etiologies, and pressure ulcer staging.

Skin tears are preventable, however it is estimated that at least 1.5 million skin tears occur in institutionalized older adults each year. This session will review current evidence based recommendations for accurate assessment, prediction, treatment, and prevention strategies, including forms and tools you can put to use immediately.

LEARNING OBJECTIVES

Upon conclusion participants will be able to:

- Describe the elements of a wound assessment
- Identify pressure ulcers utilizing NPUAP staging guidelines
- Identify tissue types commonly found in wounds
- Identify risks for skin tears and skin tear category classification.
- Discuss the treatment of skin tears and prevention strategies.
