# Hello.

First things first, thank you. Thank you for keeping our healthcare institutions running with caring, passionate people who take care of our communities.

I know it's not easy.

These levels of turnover and dependence on expensive travel nurses are not financially sustainable.

So what can you do?

Invest in people where it matters. Invest in their financial lives.

I hope you will join me at the **IHA webinar on October 10th** as we talk through some solutions.

Stay well,

**Peter Dunn (AKA Pete the Planner)**
