Carmel, IN 46032

Rhonda Fischer & Jan Brauer | Creating Team Solutions

Recover, Rebuild, Restructure, Release: How to Unleash the Team for Health Care's New Day

Rhonda Fischer, a board-certified ER nurse with 26 years of experience, brings her passion for patient safety and clinical excellence into both her nursing practice and her work as a national patient safety consultant. Jan Brauer is a nationally recognized inspirational speaker who has become a leader in patient-centered teamwork.

Session highlights:

Rhonda and Jan will present an interactive session looking into the strategy of adjusting our approach to rebuilding both leaders and frontline staff.

Danny van Leeuwen | Health Hats

Libby Hoy | PFCC Partners

The Power of ONE More Step | IHA Member Panel

The pandemic dismantled much of the progress made to reduce harm in our systems. Why rebuild patient safety programs alone when hundreds of people are eager to help? Let's engage patients and family caregivers at every level of the organization to improve safety.

Session highlights:

Join Danny and Libby for this interactive, energizing session to explore the many ways your patients and family caregivers can contribute to better outcomes at your hospital.

After their session, Danny and Libby will moderate a panel discussion with a few member hospitals. You'll hear from staff representatives, advisors, and partners.

This session is presented by Ivy Tech Community College.

Ryan Campbell | Aussie Adventurer, Pilot, & Author

Identifying Your Pink Cadillac

Ryan Campbell is the youngest Solo Pilot to Circumnavigate the Globe, and he was named one of Australia's 50 Great Explorers. In 2015 he was seriously injured in a plane crash in which he was the sole survivor.

Session highlights:

- Take One Step: The approach to not just achieving but overcoming.
- Slow Down: The importance of slowing down in turbulence.
- Step Back: The importance of utilizing joy to build a culture of resilience.

This session is presented by CarePort Health.
